**Do you ever ask yourself a question, but never say it out loud?
Check out some of these winners!**

Why isn't the number 11 pronounced onety-one?

If 4 out of 5 people SUF-FER from diarrhea...does that mean that one out of five enjoys it?

Why do croutons come in airtight packages? Aren't they just stale bread to begin with?

If a pig loses its voice, is it disgruntled?

If it's true that we are here to help others, then what exactly are the others here for?

If Fed Ex and UPS were to merge, would they call it Fed UP?

Do Lipton Tea employees take 'coffee breaks'?

What hair color do they put on the driver's licenses of bald men?

Is it true that you never really learn to swear until you learn to drive?

If a cow laughed, would

milk come out of her nose?

Whatever happened to Preparations A through G?

Why, Why, Why do we press harder on the remote control when we know the batteries are getting weak?

Why do banks charge a fee due to insufficient funds; when they already know you're broke?

Why is it that when someone tells you that there are one billion stars in the universe you believe them, but if they tell you there is wet paint you have to touch it to check?

Why doesn't Tarzan have a beard?

Why does Superman stop bullets with his chest, but ducks when you throw a revolver at him?

Whose cruel idea was it to put an "s" in the word "lisp"?

If people evolved from apes, why are there still apes?

Why is it that, no matter what color bubble bath you use, the bubbles are always white?

Why do people constantly return to the refrigerator with hopes that something new to eat will have materialized?

Why do people run over a string a dozen times with their vacuum cleaner, then reach down, pick it up, examine it and then put it down to give the vacuum one more chance?

Why is it that no plastic bag will ever open from the first end you try?

How do those dead bugs get into the enclosed light fixtures?

How come you never hear father-in-law jokes?

A very special thanks goes out to our Client of the Month:

Ben Loebner

We know there are a lot of choices when it comes to your vehicle's repair, and we are truly honored by the trust you have placed in us. Thanks again! We couldn't do it without the support of great clients like you!

A young man called his mother and announced excitedly that he had just met the woman of his dreams. Now what should he do?

His mother had an idea: "Why don't you send her flowers, and on the card invite her to your place for a home-cooked meal?" He thought this was a great strategy and arranged a date for a week later. His mother called the day after the big date to see how things had gone.

"The evening was a disaster," he moaned.

"Why, didn't she come over?" asked his mother.

"Oh, she came over, but she refused to cook..."

Everyone got together and decided that the average parent...

- has eaten their weight in Girl Scout cookies.
- has at least two backup recipes for play-doh.
- has Pizza Hut on speed dial.
- has prepared more than 10,000 servings of macaroni and cheese.
- unconsciously hums at least three children's show theme songs a day.
- can take construction paper, glue, pudding cups and aluminum foil and make a delightful table centerpiece.
- can produce from their pocket/purse at least 12 Legos, 3 hot wheels cars, and a Barbie shoe at any given time.
- has at least one child induced stain on the clothing they are currently wearing.
- secretly hopes that whoever thought up 3 months for summer vacation gets attacked by a pack of marauding wolverines.
- knows that a suspiciously sweet, "Mommy, I love you" means, "I have just decorated your new head board/carpet/dress/suit with all your makeup."

"Television won't last because people will soon get tired of staring at a plywood box every night."

Punxsutawney Phil Facts in honor of Groundhog Day!

The average groundhog is 20 inches long and normally weighs from 12 to 15 pounds. Punxsutawney Phil weighs about 20 pounds and is 22 inches long. Groundhogs are covered with coarse grayish hairs (fur) tipped with brown or sometimes dull red.

They have short ears, a short tail, short legs, and are surprisingly quick. Their jaws are exceptionally strong.

A groundhog can whistle when it is alarmed. Groundhogs also whistle in the spring when they begin courting.

A groundhog's life span is normally 6 to 8 years. Phil receives a drink of a magical punch every summer during the Annual Groundhog Picnic, which gives him 7 more years of life.

Punxsutawney held its first Groundhog Day in the 1800's. The first official trek to Gobbler's Knob made on February 2nd, 1887.

So the story goes, Punxsutawney Phil was named after King Phillip. Prior to being called Phil, he was called Br'er Groundhog.

A groundhog's diet consists of lots of greens, fruits, and vegetables and very little water. Most of their liquids come from dewy leaves.

Insects do not bother groundhogs and germs pretty much leave them alone. They are resistant to the plagues that periodically wipe out large numbers of wild animals.

He was president?!?! Oh, yeah, I remember now!

Could You Do Us A Favor?

Our business was built on the kind words many of our clients say about us to their friends and family. And since we're looking to grow a little more, we could use your help right about now. If you know of someone who needs help with their vehicle—someone who's looking for a place they can trust—won't you please tell them about us? We know you really appreciate the way we look out for your family by all the thanks we get. And sharing us with your closest friends and family is the most sincere form of appreciation we know. So do both your friends and us a favor by giving them one of our referral cards. You will benefit as well by knowing your loved ones are in good hands—not to mention our gift to you for your kind actions. **Thank You!**

An organization of city women, met and decided that this month's outing was to be at a dairy farm. Most of them had lived in the city all their lives, and had never seen such a place.

The day came for the trip, and the ladies filed into the rented bus which whisked them off to their destination. On the way, they watched out the windows as the city squalor turned into lovely, unpolluted countryside.

After they arrived, they were greeted by the farmer who invited them to look him up should they have any questions. Laura, after looking about, and being amazed by what she saw, stepped into a building and viewed something she thought was quite remarkable. She saw the farmer walk by and hailed him -- he sauntered in.

"Sir," she inquired, "Why doesn't this cow have any horns?"

The farmer cocked his head for a moment, then began in a patient tone: "Well, ma'am, cattle can do a powerful lot of damage with horns. Sometimes we keep 'em trimmed down with a hacksaw. Other times we can fix up the young'uns by puttin' a couple drops of acid where their horns would grow in, and that stops 'em cold. Still, there are some breeds of cattle that never grow horns. But the reason this cow don't have no horns, ma'am, is 'cause it's a horse."

One evening Mary was driving her eight-year-old daughter to Grandmas house for an overnight stay.

It was late, there was very little traffic, and Mary and her daughter were enjoying a peaceful ride. It was a far cry from the usual chaos surrounding them when she would drive her to various activities during rush hour.

Her daughter seemed deep in thought when she said, "I have a question."

"What do you want to know?" Mary responded.

"When you're driving," she asked, "are YOU ever the idiot?"
